

A cursory review of the recent actions by the Baldwin Park City Council reveals no record of the Baldwin Park City Council having taken action to make the requests contained in the above referenced letter. It appears that such an action, if agreed to by a majority, should be in conformity with California State public meeting laws.

As the above referenced correspondence correctly points out, Mr. Corona is presumed innocent until proven guilty. Until such time as there is an adjudication of Mr. Corona's alleged actions, I see no need to speculate as to what conduct, if any, of which Mr. Corona may be guilty. I trust that the City council will leave the matter to the judicial system and the electorate just as it has done so in the past.

Sincerely,

A handwritten signature in black ink, appearing to read "Jack B. White", with a long, sweeping horizontal line extending to the right.

Jack B. White
President, Board of Education
